TO THE LADIES.—Mrs. BIRD very respectfully informs the ladies of New York and females generally that she continues to give advice and prepare her popular and efficacious medicines for the various diseases peculiar to females. Mrs. B. is happy to announce that her treatment has given the fullest satisfaction to the very numerous patients who have relied on her professional abilities. Mrs. B. has felt herself warranted in undertaking the very responsible office of a Female Physician, from long experience and practice in the most cel brated hospitals of #Burope, from the instruction and advice of eminent medical gentlemen, and from a scientific knowledge of the beautiful structure of the human frame, an ignorance of which must render the unblushing pretensious and decoying panaceas of mercevary adventurers totally useless, if not highly injurious. Single and married ladies may rely with confidence on her skill and maternal solicitude as a Female Physician. However distressing may be their complaints, her medical acquirements will be found adequate to the Ladies on the successful results of a florough medical education, and a just reliance on "the appointed means" of imparting health, vigor, and consequently happiness, to all those who may honor her with their confidence.

Dr. J. Morrison, who has practised medicine some twenty years in Oncida, N. Y., says of it, "That it is the best medicine now in use. In case of retention or suppression of the menses, think it will sustain the appellation of Specific. I have tried it in the most cases with admirable success; and I wish for the take of suffering Females, that all Physicians would invoduce it into their practice, as I have found the Fills fully to answer their recommendation."

DISPENSION OF SPECIE PAYMENTS—The crisis has now arrived to test the merits of the cash system, for however flattering the credit system may appear on paper; it effects upon individuals often prove ruinous in the extreme. In London and Paris, the consumers have set their face against it and consequently, a number of establishments have prung up of late years that do a cash business only. This has been termed by some the European system, and has but recently been introduced acto New York.

DR. SOLOMON HEINE, M. D., TO THE GREAT
Thirteen years was I sifficted with ulcers all ever my body, my feet was so destroyed by them that several physicians recommended them to be amputated—my throat so destroyed by the disease as to be anable to speak, cat or awallow food, my tongue the same, and my health otherwise so destroyed by the disease as to be anable to speak, cat or awallow food, my tongue the same, and my health otherwise so destroyed as to make life a burthen. In five weeks after my application to Dr. S. Iomon Heine, M. D., No. 175 Hudson street, my sorrs were healed, my health restored, and being unable to recompense such services, I feel it a duty to publish this statement, not only ingratitude, but for the benefit of others, who may be affected in a similar manner.

(Signed,) ABIGAIL HALL, 670 Water st. Swarn to before me, this 24th day of December, 1839.

(Signed,) SAMUEL J. WILLIS,
Alderman of Seventh Ward.

N. B. Having made application to the ald-man of the ward in behalf of the abovementioned sufferer, to obtain the gratuitous services of Mr. Solomon Heine according to one of his advertisements, I take great plasure in saying that the bove statement is substantially correct, and feel it a duty I owe to him and the community to recommend all suffering similar ma'adies to apply to him.

(Signed,) A. B. HOITON,
Missionary, Seventh Ward.

HEINE offers his services as before, wishing only for those cares, whatever the disease is, though pronounced incurable by all other physicians, and assures them that he will cure them, though their case is hopeless: Medicines and advice are no incouvenience or exp my. MEDICAL CARD.—DR CARPENTER, No. 4 Peck MS Shp, New York, deems it proper occasionally to remind the public that he continues to administer to the affected at his old established Dispensary

To a vast number of the citizens of this metropolis he needs no heralds to amounce his victory over disease, in its most complicated and destructive forms nor occa no deem it maternal to twich mankind and womankind are subject.

To strangers he begs leave most respectfully to remark, that is confines himself to office practice, and devotes himself personally to the welfare of his patients, keeps no assistants or shop boys, and has separate offices for the privacy of patients, who can never come in contact.

Dr. Carpenter would add that he is regularly educated to the profession of medicine and surgery, and received his diploma in the year 1818, of the New York State Medical Society signed by the highly respected and much lamented John R. B. Rodgers, M. D., as fresident, and that he has for a long series of years devoted himself to the treatment and cure of all delicate and private diseases.

If nearly thirty years assidnous and arduous application to the duties of the medical profession, and constant familiarity with every stage and variety of a particular plass of diseases, used by a colleginte and regular medical education, cuttle the practitioner to any preference over the mere tyro in the profession, Doctor Carpenter deems it consistent and proper to direct the attention of a discerning public to the inference of the comparison, and an investigation of his claims.

97 Charges reasonable, and effectual cures, in all cases quaranteed. Separate and private offices—Patients can never some in contact.

OF-PEINE'S ORRIS TOOTH PASTE for cleansing,
preserving, and beautifying the teeth, received the first premium at the recent Fair of the American Institute.

This unequalled dentifrice gives to the Teeth a clean and
pearly whitness, and removes and prevents every appearance of
tartar; it also improves the color of the lips and gums, prevents and heals all ulcers of the mouth, arrests the progress of
decay in the teeth, and imparts a peculiar and grateful sweetness to the brenth.

(G-" The best article that we know offor cleansing, preserving and beautifying the teeth, is Peine's Orris Tooth Pasta
it gives to them a clear and pearly whiteness, and imparts a
peculiar and most grateful sweetness to the breath. We ondially commend it to the attention of our readers, especially
to the female portion of them. No toilet can be complete with

The unprecedented celebrity which this most excellent article for the teeth so speedily obtained under its original name of
Orris Tooth Pasts, has induced several unprincipled individuals
to make base counterfeit preparations, uncer various names,
of which beware, for they may probably prove highly injeri-us to the teeth, and are no more to be compared with the gonume than Hyperion to a Satyr. The eriginal article has now
the fac simile of the inventor and praprietor, G. W. Peine,
upon the label, without which it is not genuine.
